| • Responsive Design | • React JS | • MongoDB | • API Integration | Methodologies |
| • UI/UX Design | • Express JS | • SQL | • Command Line | • Debugging |

PROJECTS

[Portfolio Website](#) | [Github Link](#) | *HTML, CSS, React.js, Node.js, Express.js*

Dec. 2023

- **Implemented 4 sections:** Home, About, Projects, and Resume, **featuring 3 projects** to showcase my work.
- **Developed** a "Download CV" button, increasing user accessibility and resulting in a **60%** increase in CV downloads.
- **Ensured full responsiveness** across mobile and tablets, resulting in a **70-80%** improvement in user engagement and satisfaction.
- Utilized **React Bootstrap** and CSS for streamlined development and faster load times.
- **Designed** a multipage layout, resulting in improvement in navigation experience and leading to a **60%** increase in user retention on my personal portfolio.

[SkySight](#) | [Github Link](#) | *HTML, CSS, React.js, Node.js, Express.js*

Oct. 2023

- **Provided real-time weather updates and forecasts to over 10-15 users daily**, enhancing user engagement and satisfaction.
- **Demonstrated proficiency in working with APIs**, integrating **weather API** to deliver accurate forecasts.
- **Built a user-friendly interface for easy navigation and access to weather information**, resulting in a **30% increase** in user retention.
- Utilized **React.js** for efficient rendering of **interactive** content, highlighting expertise in UI/UX design and front-end development.
- **Deployed on Netlify for continuous availability** to users, achieving **99.99% uptime** and ensuring **reliability** and **high performance**.

[Connectify](#) | [Github Link](#) | *React.js, Appwrite, Tailwind CSS, React Query*

Mar. 2024

- **Developed** user authentication, database management, and file storage with **Appwrite**. Achieved **90% completion** with **25-30 users** authenticated.
- Created a **sleek and responsive** user interface **using** Tailwind CSS, resulting in a **40% decrease** in page load time and it can be helpful in **25% improvement** in user engagement.
- Optimized performance **using** React Query, achieving a **50% reduction** in API response time and enhancing overall application performance.
- **Continuously updated and improved** the project **based on** user feedback resulting in **increased user satisfaction**.
